

Gestalt Gendakenning

Whilst trawling through the LI platform in my quest to stretch my own knowledge, I have become acquainted with Andres who has challenged me on various occasions through his advanced C-level management and business consulting expertise of over 30 years. Andres is an independent adviser, analyst, researcher, strategist, innovator, manager, problem solver, and is a prolific writer. He has published over 50 titles (www.amazon.com/author/Agostini) and his most frontier-braking researched book is his publication the White Swan [...] His polymathic way of thinking uses a similar approach to the old Beatles song . . . take a sad song (Black Swan) and make it better (White Swan). At least that is how he has made me feel since I have got to know him. In speaking about feelings, I have become so interested in his opinion and professional guidance as it is contrapositive to my own way of operating [...] His amazing client list indicates that Andres is a truly globally industrious person. In the time that I have come to know him he has become a treasured mentor to me. His expertise stretches into beyond-insurance risk management through his systems thinking approach and scientific futuring. His dynamic mind and intuitive intellect allows him to preemptively see trends and counter-trends before they crystallize, with the end of taking advantage of them [...] Andres is the CEO of the www.Future-Observatory.blogspot.com and the Global Chief Consulting Officer, Worldwide Ambassador, Board Advisory Member at the Lifeboat Foundation. Given the vast amount of Andres high level contacts, I look forward to sharing and complementing our mutual business initiatives. Mr. Frans van Wamel (Melbourne, Australia) at <http://linkd.in/1BTigxP>
