

Intuition About 90% of our decisions are logical. Lets say the people who took all of their decisions logically as A. And B the people who took decisions using their logical and emotional skills. It turns out the people in the group B are more successful than people of group A. The difference that made the group B more successful is that they learned how and when to listen to their heart. Intuition is like knowing the answer to a question without thinking about it Intuition helps us To find our lifes true purpose To make better decisions Improve our relationships Bring peace and harmony to life Its time we learn how to listen to our heart.
