

Priests Power Clipping and Grooming Machines (Classic Reprint)

Excerpt from Priests Power Clipping and Grooming MachinesThe earliest result of Mr. Priests efforts in this line was the Hand Power Sheep Shearing Machine here illustrated.The vital or cutting parts of this machine consisted of a universal jointed hand, to which was attached a steel-toothed bottom plate, or comb, across the teeth of which traveled a top or cutter plate of fewer teeth, the cutting surfaces of both plates held together by an elastic pressure.The power to operate this early device was conveyed by means of a revolving shaft, called the Drop Rod.About the PublisherForgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.comThis book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
