

Self-Editing Your Novel: An editors tips to make your work shine

Are you a fiction writer? Do you need help with editing your work prior to publishing? Self-Editing Your Novel is designed for all those who are writing fiction, namely novels, but it could also be used as a guide for those writing short stories and even non-fiction. So whether you're writing about love and romance, an epic journey, a family saga, murder, mystery, or some other genre of creative fiction, this is the book for you. Drawing on her years as a writer, a manuscript assessor and as an editor and proofreader, Kathy Stewart has put together a guide that should enable you to avoid the common pitfalls that might prevent your novel from reaching a wider audience. Kathy owns and runs an editing and appraisal service situated on the Gold Coast of Australia. She has always been passionate about writing and has worked as a professional editor since 2004. Many of the books she has worked on are now selling in bookstores and online and many others are in the pipeline. Her manuscripts, *The Chameleon Factor* and *Race Against Time*, were shortlisted and longlisted respectively for the 2010 Crime Writers Association Debut Dagger Award in the UK.
