

Janes Intermodal Transportation 1996-97: Efficient Information on the Worldwide Freight Business

This guide provides a review of more than 515 ports, 345 ship operators, 112 intermodal operators and 122 container manufacturers, with entries totalling over 2000 in all. Information is provided on quay lengths, water depths, crane capacities, storage space and full contact details for port authorities around the world. In separate sections this work profiles the ship operators and railway systems, identifying routes, freight capacities, handling systems and the key personnel to contact. It also identifies the manufacturers of containers, handling equipment and components, plus container leasing and servicing companies.
