

Excerpt from Large Scale Experiments on the Processing of Japanese Persimmons: With Notes on the Preparation of Dried Persimmon
Sir: I have the honor to submit for your approval an account of certain experiments which have been conducted during the past year by H.C. Gore, of this bureau, on the processing of Japanese persimmons on a large scale and on the preparation of the dried fruit. Mr. A. V. Stubenrauch, of the Bureau of Plant Industry, has cooperated with Mr. Gore throughout the course of the work, giving advice as to the general scope and conduct of the experiments. From the data herein recorded explicit directions for processing persimmons on a large scale may be formulated and an idea obtained of the probable place that processing may hold in the persimmon industry. The preparation of dried persimmons on a laboratory scale indicates that a product of excellent quality may be obtained by the use of simple methods. I recommend that this manuscript be printed as Bulletin 155 of the Bureau of Chemistry. About the Publisher
Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com
This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
