

Little Robot Rabbit

Lift the flaps and follow an endearing tiny robot as she searches for her missing pet. Unfortunately, our young heroine cannot find her little robot rabbit anywhere! Mike Brownlow again creates a hilarious community of robots--scary, stretchy, mischievous, sporty--all of who want to help Little Girl Robot in her search. More often than not, they comically and unwittingly complicate the quest. Filled with flaps, accented with foil, and bursting with color, this imaginative rendering of the world according to robots, along with its simple rhyming text, is sure to delight robot fans, big and little alike.
