

Sound-Advice

As Albert Einstein once said, Great spirits have always encountered violent opposition from mediocre minds. To avoid mediocrity and find happiness, the author urges his readers to stop criticizing others and learn to laugh at themselves. While traveling the country doing stand-up comedy, Michael Combatti learned to listen to the still, small voice inside him. It made him realize that most of the roadblocks in his path were placed there by himself, and that honesty wasn't just the best policy, it was the only policy.
