

Day and Night Lap Book (Literacy, Language, & Learning)

The strong link between images and text lies at the core of this shared reading experience and aids in assisting new readers in understanding the content. The larger size of this Lap Book makes it ideal for read-alouds, partner reading, and small group instruction. The vivid, playful illustrations attract readers attention while the text provides useful information that allows for recognition of different times of day. Children will be encouraged to retell the events of the story or to create one of their own, leaving them feeling confident and creative!
