

The Last Child of Asgard: Alpha

A year post the battle at Moonrise Academy, much has changed... A returning Loki has recruited a demigod army in pursuit of overthrowing Olympians to obtain the throne. Gradually Olympians fall to their demigod offspring! Queen Artemis missing, the throne is available for Loki! Alas, Loki is not the rightful heir to this throne, therefore mortals will not worship him as the King of the Gods. A fortuitous loophole, Sans a challenger prior to the Summer Solstice, the right to rule Olympus becomes his. Is Maximus capable of stopping Lokis plan to rule? Or will the world forever be enslaved to hail Loki as a king?
