

The Dragons of Greenster Forest

A delightful tale of a young dragon and a beautiful Queen who try foil the plans of some evil cousins who want to conquer their country and rid Greenster Forest of all dragons. But how can such an unlikely couple be successful against a ruthless enemy that has created chaos in the Kingdom of Navn and Greenster Forest. Dragons swore an oath that Navnites shall die if they enter the forest; armies are ready to march on King Maritain and Navn; and the son of the royal is being held captive in a forest cave. The dragons have lost a daughter and have a son who only wants to play and will not act like a dragon. How can all this be resolved? Will Navn be defeated? Will Richard be returned to his parents? Will the dragons become peaceful again? Will the evil cousins be brought to justice? All the questions are answered when you read The Dragons of Greenster Forest.
