

The Lighthouse War: The Lighthouse Trilogy Book Two

The heart-pounding sequel to *The Lighthouse Land* Jamie O'Neill is back on earth, where no one but his best friend, Ramsay, knows he's the hero of a great war that saved an alien nation. Now he's back to being a kid with one arm, no girlfriend, and a band that plays bad songs about intergalactic romance. Then news breaks on the Internet: A space probe has picked up a coded message from far across the galaxy. NASA's best scientists can't figure out what it says. Only Jamie and Ramsay realize it's a message from Altair. They're needed again. This thrilling sequel to *The Lighthouse Land* is packed with even more adventure, battles, and humor than its predecessor, and secures Adrian McKinty's place as one of science fiction's most exciting new voices.
