

The Forbidding Blue (The Parting Breath Series Book 3)

The once green world is turning to ice, while a book of startling prophesy raises terrifying questions about what the future might hold. A princess is beset with nightmares she knows reveal truth. A malicious demon runs rampant, killing without abandon. Where can hope be found? Brenol and Arman throw themselves into a daring hunt to destroy the murderous spirit, and Colette seeks assistance out in the desert of ice, but the future of Massada remains bleak as death and deceit thrive. All things good and true stand in perileven love.
