

Modern Walk with the Ancient of Days

In the 21st Century, the temptation to think the Ancient of Days has become, as the name suggests, too old to understand our situation, too old to be concerned let alone be able to deal with our every day worries is very high. In Modern Walk with Ancient of Days, Moses reveals, following his autobiography, how God has been involved in every aspect of his life in many miraculous ways. Having lost both parents at the age of 15 just after being born again, he was left with non but God, Almighty who says he is Father to the fatherless. He proves in very simple ways, how God is concerned with every detail of our lives even those things considered not spiritual.

As he traces the doings of the Lord in his life, he blends his autobiography with simple but profound and practical teachings on key doctrinal issues that the church still seems to be struggling to grasp. At the end of it all, he proves that God is the same yesterday, today and forever and that with God nothing is impossible. Key issues addressed include the doctrine of salvation, Holy Spirit baptism, divine healing, prosperity gospel, asking and receiving from God, and Gods divine providence. All these and many other topics are tackled not from a theoretical perspective but practically through the real life testimonies of the author over a period of 32 years. The reality of Gods hand in these testimonies almost leaves one wondering whether this book should be filed under religious fiction section. Such is the wonder working power of our God, Jehovah, the Almighty, the Ancient of Days.
