

TRANSFORMING LEADERSHIP FOR THE 21ST CENTURY

The challenges and opportunities of the 21st Century call for a new type of leader and leadership, indeed an entirely new and different way of thinking about leadership and of developing future leaders. Hays and Kim provide that new way of thinking and introduce readers to eight sets of competencies essential for leadership in the new millennium. Those who possess or are developing these competence sets are Renaissance Leaders, and it is they who can and will lead and transform organisations, communities, and nations most effectively. This text provides essential guidance to anyone concerned with developing their own or others leadership for the 21st Century.
