

The Perfect Fit: Advanced Recruitment Skills For Finding And Hiring The Ideal Candidate

The Perfect Fit offers a manual to recruiters, line managers and candidates as to how to get the most from the recruitment and selection processes. In applying NLP to business and organisations we can gain deeper insights into how people function individually and in teams. We can increase our understanding of the patterns of communication and the behaviours that contribute to an average performance and an exceptional performance. NLP provides us with the tools to make clear distinctions between the two, not just what is done consciously but also those behaviours that are unconscious. The Perfect Fit is not just a practical tool kit but a manual to develop each organisations recruitment process.
