

Wired to Create: Unraveling the Mysteries of the Creative Mind

Based on the authors wildly popular Huffington Post article 18 Things That Creative People Do Differently (which generated 5 million views and 500,000 Facebook shares in one week), this well-researched and engaging audiobook uncovers what we know about creativity, and what anyone can do to enhance this essential aspect of their lives and work. Filled with insights from the lives of well-known artists and visionaries, along with scientific findings and practical advice, this smart, lively and inspiring audiobook reveals these creativity-sparking habits: Daydreaming Taking Time for Solitude Seeking out New Experiences Nurturing Emotional Sensitivity Turning Challenges into Opportunities for Growth Making Time for Play Following Passions Practicing Mindfulness Listening to Intuition Challenging the Status Quo Achieving Mastery What Quiet did for introverts Wired to Create will do for creative individuals, along with anyone who aspires to be one that is, it will help them see themselves in a positive light and enhance their strengths, even though they are not always the most conventional ones.
